

Accessories Comparison - Surface Mounted Consumer Units

| Feature | Description | Supplied with | |
|--|--|---------------|-----------|
| | | Design 10 | Design 30 |
| Meter tail entry plate (VM04CE) | When clipped into place, the moulding holes allows meter tails and CPC to enter the board safely | ✓ | ✓ |
| Top wall cable entry plates (VM03CE) | Specially designed for our square knockouts, these plates provide more options for cable entry. When used with 50x50mm trunking, IP ratings can be achieved. | ○ | ○ |
| Blind cable entry plates (VM04CB, VM03CB) | A blank plate for drilling which allows the installer to decide on the method of incoming cables - compression gland etc. | ○ | ○ |
| Rear cable entry plate (VM02CE) | Allows cables to enter the rear of the board without the risk of damage from sharp edges. | ○ | ✓ |
| Cable clamp (VA10MT) | Incoming meter tails can be safely secured, eliminating stress within the switch terminal. | ○ | ✓ |
| Stand-off plate (VM01SP) | Provides 12mm of clearance at the rear of the consumer unit to allow surface mounted cables to enter the board from the rear. | ○ | ○ |

✓ Included with board ○ Available as an accessory

* Knockouts available by choice on Design 30 range. References ending with a 'K' contain knockouts.

Design 10 Consumer Units

At a Glance

The board you can trust.

:hager

Flush or Surface

Design 10 Consumer Units are available in flush and surface mounted variants, to suit a wider range of installations.

Safer

Our terminal rail is mounted at the top to make the wiring of the neutral and earth connections neat and simple.

Installers in mind

Front cover screws can often be lost or misplaced on site during installation. Our fasteners are retained in place to ensure they won't be lost during installations.

Easier Installation

Ample cable space is provided as standard. Our reduced height RCBO (up to 32A) is similar in height to an MCB, ensuring an easier installation where lack of cabling space can be a challenge.

The Full Package

Since launch, we have developed a large portfolio of accessories for our Design range. Protector plates for cable entries, a cable clamp to secure meter tails & a stand off brackets all allow for an installation method that suits you.
