At A Glance

Klik Black

Klik Black delivers a low visibility solution, allowing the lighting connection system of a building to hide in plain sight.

Ceiling Rose

The 6A plug-in ceiling rose is used to offer a pluggable connection for luminaires. The luminaire can be connected and disconnected under load.

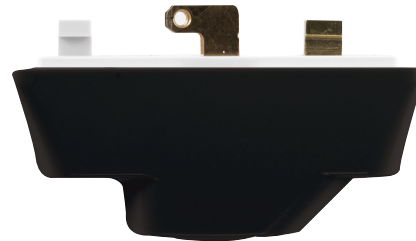

Presence Detector

The Klik Black occupancy sensor can provide a presence and absence control of lighting, providing energy savings by switching lights on or off depending on the usage of the room.

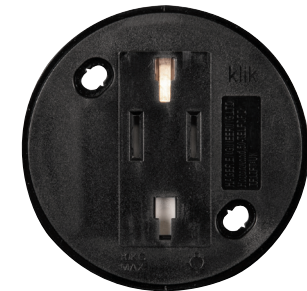

Marshalling Box

As part of the Klik 4 range, the marshalling box enables luminaires cables to be plugged-in on or off load. Plug-in connectors provide simultaneous electrical and mechanical connection in one simple click-in action.

3 Pin Plug

Like all Klik plugs, the Klik Black 3 pin plug features a unique plug-in method which achieves a simultaneous mechanical and electrical connection.

4 Pin Socket

The 4 Pin 6A Socket Outlet can be used in conjunction with Klik 6A plugs to provide a pluggable connection to luminaires.
