Sollysta White Moulded
2022.02

Sollysta is our expansive range of wiring accessories to be installed with ease.

Terminals

The terminals all face in the same direction, removing the need to rotate the product during installation.

Terminal Screws

Terminal screws are supplied in the backed out position to save installation time and are also held captive within the moulding so they won't be lost.

Wire End Stops

A positive wire end stop provides added security of connection.

Lead-ins

Moulded lead-ins help to guide the driver blade to the screw head.

Projection

The range has been designed to offer the shallowest projection possible in the back box, maximising space for cabling.
